TakeCare's Group Fitness Class Descriptions

All classes may be modified for all levels of fitness.

ABS & BUTT

This class is designed to strengthen and tone your abdominal and glute muscles to improve your core strength and mobility.

BODY SCULPT

A cardiovascular, strength-training class designed to make you lean and defined by providing a results-oriented whole body workout. Build and sculpt muscles, strengthen your core, improve your strength and flexibility while burning fat and calories. You will gain strength, balance, flexibility and endurance while focusing on total body health.

HOT HULA fitness®

HOT HULA fitness® is a fun, new and exciting dance workout. It provides a "total body workout" in 60 minutes. HOT HULA fitness® isolates your larger muscle groups, increasing strength and definition to your core with specific emphasis on the abs, glutes, quads and arms. Inspired by the dances of the Pacific Islands, HOT HULA fitness® incorporates easy to perform dance movements set to the sounds of traditional Polynesian drum beats fused with funky Reggae music, resulting in a modern, hip fitness workout. All ages and fitness levels will enjoy HOT HULA fitness®.

MIXED FIT

MixedFit is a people-inspired dance fitness program that is a blend of explosive dancing and boot-camp inspired toning. We dance to songs you can hear in the radio, and our dance- steps are simple, so people can focus on working out rather than on complicated choreography.

STOTT PILATES (mat)

A great starting point for beginners and all fitness levels, or for those who are recovering from injury or trying to fine-tune their technique. The Essential/Intermediate Matwork class teaches the Five Basic Principles of the STOTT PILATES method and builds a foundation of exercises required to move on to the next level. This mat-based workout is designed to help participants develop leaner, longer-looking muscles, establish core strength and stability and heighten mind-body awareness. Props or equipment may be incorporated to add variety.

TC CYCLING

This class provides a cardiovascular workout on a stationary bike. The routine is designed to emulate hill climbs, sprints and intervals at varying speeds and resistance for all levels. This class is held at Urban Studio and bikes are at a first come first serve basis. **SAME DAY RSVP at 969-7308.**

TC H.I.I.T

High Intensity Interval training combines full-body strength training with high intensity cardio bursts designed to tone your body, improve your endurance, and provide a total body workout.

TC TRX

This class involves exercises performed using your own body weight to provide resistance using TRX suspension bands. This workout runs through interval training, with recovery segments after each round and movements incorporate strength training and cardio.

WATER AEROBICS

This class improves strength and cardiovascular endurance with movements such as marching, jogging and skiing through the water creating resistance to improve muscle endurance and flexibility without the impact on your joints.

YOGA

This class will empower your mind and strengthen your body as you move through a series of meaningful yoga poses. This class will help you build strength, increase flexibility, and find focus. Prior experience is not needed.

ZUMBA

Each Zumba class is designed to bring people together to sweat it on by mixing low-intensity and high-intensity moves for an interval style, calorie-burning dance fitness. This class combines all elements of fitness such as cardio, muscle conditioning, balance and flexibility.

ZUMBA TONING

This class combines targeted body-sculpting exercises and high-energy cardio workout with latin-infused Zumba moves to create calorie-burning, strength-training dance fitness. Using Zumba toning sticks or light dumbbells, you'll work every muscle group to tone and redefine your body.
