Hafa Adai Federal Employees and Annuitants!

Welcome to the Open Season enrollment period for the 2026 calendar year!

This year, the annual FEHB Open Season will run from **November 10 - December 8, 2025**.

For those of you not currently enrolled, this will be your opportunity to join the FEHB program for 2026. For those of you already enrolled, this will be your opportunity to change plans or plan options or types of coverage, or choose TakeCare as your health insurance carrier in 2026.

To enroll for the first time, or if you're wanting to make a change to another carrier, or change your current TakeCare enrollment, you will need to take action using your agency's benefit enrollment system or complete an enrollment form (SF2809). If you don't wish to make any changes to your TakeCare enrollment, you don't need to do anything; your enrollment with TakeCare will automatically renew on the effective date in 2026.

If you (and/or your dependents) have Medicare or will become eligible for Medicare in the next 12 months, a Federal law gives you more choices about your prescription drug coverage.

Please see the Notice on the front inside page of the enclosed Federal brochure for more details.

Open Season Activities

This year, we will be presenting group briefings at your agency offices, hosting virtual online briefings, walk-in hours at our customer service office, scheduled health fairs, and making available lots of information on our web site's special Open Season information page and social media channels. We encourage you to visit the web site page frequently to learn more about the 2026 benefit offering and be on the lookout for the newspaper ads and other announcements concerning dates and times of various open season activities hosted by TakeCare.

To access electronic versions of our materials or enroll for our non-FEHB offerings, go to TakeCare's 2026 FEHB Open Season page at www.takecareasia.com/FEHB2026 or scan the QR code below.

HDHP Plan Option

If you're looking to keep more money in your pocket during these challenging financial times and you really don't use a lot of healthcare right now, consider enrolling in TakeCare's High Deductible Health Plan (HDHP) Option this open season.

Here's some good reasons to choose TakeCare's HDHP Option:

❖ **Very affordable** bi-weekly payroll deduction

- Self Only (HJA) - **\$17.80**
- Self Plus One (HJC) - **\$42.97**
- Self and Family (HJB) - **\$47.72**
- A Self Only payroll-deduction annual savings of **\$1,429.92** over TakeCare's High Option; even more if you're covering dependents

❖ **100% coverage for in-network preventive services (deductible waived)**

- preventive annual physical exams, immunizations, age/gender related screenings, well-child visits
- most preventive care medications, supplements and devices, **including insulin and other glucose-lowering agents**, if prescribed by a healthcare professional and filled at a network pharmacy

❖ **Health Savings Account (HSA) qualified plan**

- In 2026, TakeCare deposits into your HSA each month **\$37.08** if you have Self Only coverage, **\$89.52** for Self Plus One, and **\$99.41** for Self and Family
- In 2026, the maximum that can be contributed into your HSA is **\$4,400** for the year if you have Self Only coverage including TakeCare's contribution; **more if you're covering dependents**. If your age is 55 or older, you're allowed an additional \$1,000 contribution
- Contributions are tax-deductible, investment earnings are tax-deferred, qualified withdrawals are tax-free You may use the money in your HSA, including TakeCare's contribution, to pay all or a portion of the annual deductible, copayments, coinsurance, or other out-of-pocket costs that meet the IRS definition of a qualified medical/dental expense
- Any funds remaining in your HSA at the end of the year completely rolls over into the next year
- Continue to access available funds even if you leave Guam or federal employment or enroll in a non-qualified plan
